

# THE CAMP INVENTION DAILY FIRST DAY

## Welcome to the first day of Camp Invention!

Each day, your child is entering a place where their ideas matter and anything is possible! This is a safe and fun space where your child can create, test, try, fail, discover and explore the incredible world of invention. Look closely throughout the week – we're sure you'll see your child's ideas turning into reality!

### DAILY ACTIVITIES AT A GLANCE

#### FARM TECH™

The farm of the future is in our hands! We prepared our farms for planting and programmed a robot, Bot ANN-E, to hatch an egg. Then, we explored a groundwater cleanup technology and saw how hydrophobic sand never gets wet! Our farms now have healthy soil thanks to the devices we built, and we saw our farm business grow with our first earned Moola.

*Ask your Future Farm Innovator about exploring the hydrophobic sand and what the future of farming looks like to them.*

#### INNOVATION FORCE®

We've been recruited to join the Innovation Force, a team of inventive superheroes! Our mission is to stop the Plagiarizer from stealing ideas and to spread the word about protecting ideas with patents and trademarks. We came up with our superhero names and created our disguises.

*Find out what your child's alter-ego superhero name is and what their disguise will look like.*

#### DEEP SEA MYSTERY™

We're the newest crew of research scientists and we are on a mission to discover if one of our fossils represents a fish that is extinct or still swimming the seas. This will be an expedition like no other!

*What type of fossil did your research scientist find? Ask them to teach you their sea shanty.*

#### DIY ORBOT™

We each received our own remote-controlled DIY Orbot! First, we customized our bots and then used spoons and craft sticks to turn them into soccer players. We earned a Personal Trainer certification for training our DIY Orbots to be athletes. This week, we'll be modifying our DIY Orbots to take on different challenges. We'll also have a chance to visit the Workshop to take a bot apart and explore its inner workings!

*How did your inventor customize their DIY Orbot to make it unique?*

### Experience Camp Invention with your child

The **Camp Invention® Daily** is a great way to experience camp from your child's perspective and continue the learning and interaction after hours. Each edition will feature Connection Questions so you can learn more about their daily adventures, as well as fun activities to enjoy at home! Be sure to pick up the new edition every day!

### CONNECTION QUESTIONS

1. What did you discover today that you didn't know before?
2. What was a challenge you faced today? How did you overcome it?
3. Which activity did you enjoy the most today?
