

INNOVATION MINDSET WORKSHOP

Inspire your district through the power of the innovation mindset.

The National Inventors Hall of Fame® (NIHF) **Innovation Mindset Workshop** introduces educators to strategies embedded in invention to foster open-ended learning opportunities and enhance creativity, divergent thinking, collaboration and persistence in the classroom.

Through hands-on activities, self-reflection and group discussions, participants will feel prepared and excited to strengthen their current strategies and empower students in any subject.

The Innovation Mindset Workshop will inspire your educators through:

- Strategies to integrate Next Generation Science Standards into all content areas
- Discussion and reflection on best practices to implement STEAM concepts in the classroom
- NIHF's *create, test and recreate* approach to learning through scientific inquiry and engineering design
- An introduction to instructional methods that provide immersive experiences and encourage entrepreneurial mindsets
- An understanding of the value of intellectual property (IP) literacy
- Stories and insights from real-world inventors, NIHF Inductees

All NIHF professional development workshops are customizable to support district objectives and needs.

**One day
6-hour workshop**

**Starting at \$3,125
for 25 teachers***

**Teachers receive materials
to use in the classroom**
