EDUCATIONAL PROGRAMS

NEW & INVENTIVE PRODUCT SOLUTIONS

Brought to you by the makers of Camp Invention[®], a nationally acclaimed program that has been bringing STEM concepts to life for 30 years.

NEW PRODUCT SOLUTIONS

- ✓ Address the rapidly evolving education environment and impact on customer needs
- ✓ Deliver hands-on challenges that bring immersive, STEM learning experiences to children across the country
- ✓ Provide educators and parents with turnkey solutions in at-home kits
- ✓ Promote hybrid learning including screen-free time to foster an innovation mindset

Innovation Exploration Kits[®]

Elevate Series

Camp Invention Flight Lab™

- Engage children in taking apart and customizing a high-tech flight simulation robot.
- Follow detailed instructions to guide children in investigating the inner workings of their robot.
- Receive everything you need to experiment with principles of flight, such as lift and thrust.

CAMP INVENTION
FLIGHT LAB™

Camp Invention Champions™

- Receive all the materials children need to design and build the ultimate sports complex.
- Use Inventor Trading Cards to introduce inspirational stories from inventors who have shaped the world of sports.
- Follow detailed instructions to guide children as they add simple machines into their tabletop games.

Design Thinking Project™

- Provide inspiring activities that build design thinking skills, empathy, ingenuity and persistence.
- Introduce tools and experiences to help children understand the value of intellectual property and begin to see themselves as capable entrepreneurs.
- Follow step-by-step instructions that encourage creative thinking as children sketch ideas, build prototypes, design logos and make pitches.

Rescue Squad™

- Follow detailed instructions to guide children through environmental operations, such as creating parachutes and airdropping beavers.
- Receive all the materials and tools children need to design and create an energy-efficient LED plant.
- Provide hands-on activities that allow children to get creative as they work to restore balance in nature.

RESCUE
SQUAD™
