SUMMER STRATEGIES TO ACCELERATE LEARNING

FOR GRADES K-6

CARES ACT RELIEF

With issues ranging from learning losses in mathematics and reading to negative mental health effects caused by the COVID-19 pandemic, students need our support more than ever. Fortunately, CARES Act funding can help.

WHAT IS POSSIBLE?

- Running summer and supplemental learning programs
- Addressing learning loss
- Performing assessments
- Implementing activities to support special populations
- Providing mental health services

Partner with our nonprofit organization to streamline your summer planning and provide your students with an engaging, effective program.

CAMP INVENTION: A UNIQUE APPROACH TO SUMMER SCHOOL

Camp Invention has inspired millions of children across the country through hands-on STEM exploration. After just one week of camp, participants have seen academic benefits the following school year.

CHALLENGE	OPPORTUNITIES
This year has caused students to become disengaged learners.	Camp Invention offers STEM learning disguised as fun!
Students have fallen behind in math and reading.	Our Camp Invention Accelerate® program improves literacy and math skills through engaging activities.
Students are losing interest in learning.	Camp Invention keeps children engaged through hands-on, open-ended exploration.
Students are burnt out on virtual learning, but there are no plans to return in person.	We prioritize collaboration and experimentation, bringing new life to at-home learning.
It is uncertain if students will be in person or at home this summer.	Our program is designed for flexibility, delivering the same great learning and fun in any setting.
Students need an opportunity to socialize and collaborate.	Camp Invention emphasizes teamwork and friendship.
Teachers are overwhelmed and can't take on one more thing.	We develop our curriculum to support ease of instruction and offer top-notch customer support. In fact, all our education partners have an assigned support team to help with anything that may arise.
Students need equitable learning solutions.	Camp Invention offers equitable access to learning through flexible experiences that adapt for varying resources, settings and learning styles.

“

I loved the **FLEXIBILITY OF THE PROGRAM TO MEET THE NEEDS OF ALL CAMPERS AND FAMILIES**. The kits were **AMAZING**, the teaching resources and materials were also fantastic and made our Coaches feel well prepared and confident.

”

CHRISTINE P., MOUNT HOREB, WISCONSIN

“

Over the summer, kids play by doing all these experiments. The kids don't need to know it, but parents understand that weaved into that is writing skills, math skills – and **WHEN THEY'RE PLAYING, IN ALL THE THINGS THEY'RE DOING, THEY'RE LEARNING**. It's summer learning in a fun environment.

”

GINA, CAMP INVENTION PARENT

“

Have that phone call and begin this relationship.
**EVERYONE [AT NIHF] IS DEDICATED TO GETTING THIS
[INVENTION EDUCATION] EXPERIENCE IN KIDS' HANDS.**
I wish more people would make these calls so more
students can have this experience.”

LAURA WINTER, SENIOR DIRECTOR STEM INITIATIVES, NYC DOE
