Hi, Parents and Guardians!

I'm so excited to share that this summer I will be the **[Director/Instructor]** for Camp Invention®! Camp Invention has offered unique STEM experiences for more than 30 years, and I'm proud to have been a part of it since **[year]**.

What makes Camp Invention so special is that it guides kids to build real-life skills through real-world challenges. It's incredible that just one week at camp can drastically shift how kids approach problem solving – but I've seen it happen firsthand as they design solutions, build prototypes and gain confidence in their own ideas.

I love this high-energy, hands-on camp, and I am so excited for the all-new Recharge program. I've attached a special invite for you to learn more, including a discount code to register.

If you have any questions at all, please don't hesitate to reach out.

We're looking forward to an exciting week with your innovator!
