EDUCATIONAL PROGRAMS

REINVENT REMOTE CURRICULUM AND INSTRUCTION

DEVELOP HEALTHY VIRTUAL LEARNING USING CARES ACT (ESSER) RESOURCES

As part of the Coronavirus Aid, Relief and Economic Security (CARES) Act, the federal government is providing resources to schools across the country to support students during these challenging times. The flexibility in this funding allows districts to reinvigorate students and educators by combining virtual learning with an innovative, hands-on approach.

STUDENT RE-ENGAGEMENT

The National Inventors Hall of Fame® (NIHF) K-9 education programs blend hands-on activities with videos and resources to support healthy virtual instruction. Our approach to invention education:

- Addresses socio-emotional needs through collaboration
- Encourages student-led learning through flexible, immersive experiences
- Empowers children to create, invent and grow
- Includes six program options with all the materials, instructional resources and online tools for turnkey implementation

SOCIO-EMOTIONAL LEARNING OPPORTUNITIES

PROFESSIONAL DEVELOPMENT REIMAGINED

EMPOWER YOUR EDUCATORS

Implementing hybrid experiences in the virtual classroom allows educators to inspire students and navigate the challenges of distance learning. Our professional development experience:

- Provides instruction on how to utilize blended learning materials
- Uncovers insights to ease the transition into a traditional school setting
- Highlights best practices to promote student engagement in this new environment
