

INVENTION PROJECT PRICING OPTIONS

Invention Project is designed to provide a turn-key experience with the perfect balance of STEM content and entrepreneurial concepts allowing for participants’ creativity to flourish. Developed as a series of 90-minute sessions, and aligned to National Education Standards, the Invention Project is available as an afterschool or summer enrichment program. Sessions can stand alone or fit together in any setting, from once-a-week afterschool to any number of summer enrichment options to meet the unique needs of educators throughout the country.
