

WHAT EDUCATORS ARE SAYING ABOUT CAMP INVENTION

As a school we have done Camp Invention in the past and it has not only had positive effects on our school as a whole but specifically on our students. They love camp and getting the chance to be inventors and explore things creatively that they may not get to otherwise.

– Natalie K., Munroe Falls, OH, Assistant Director

Camp Invention is a fabulous program - I have been the Director for almost 10 years, and it is the highlight of the summer for many of my campers.

– Susan P., Cubero, NM, Director

I believe it is vital for our students to be exposed to and experience the benefits of collaborating, the freedom to create and explore, and the exposure to other careers they may not have known about before.

– Jamie G., Reno, NV, Instructor

As an Instructor, I see students engaged in what they are learning at a different level than during the school year. It recharges me as a teacher.

– Kara O., Tigard, OR, Instructor

I appreciate the quality curriculum and well-organized materials. Campers have fun while learning! I am a science teacher and this promotes scientific and engineering processes in an engaging and fun way.

– Connie H., Lonsdale, MN, Director

The organization of all of the curriculum was great and made the facilitating for the teachers really easy.

– Shawna P., Katy, TX, Director
