

INNOVATION + SUPERIOR SUPPORT

For over 30 years the National Inventors Hall of Fame® has partnered with educators across the country to implement flexible invention education programs that empower both students and teachers while developing life skills through confidence-building, hands-on learning.

Learn why school districts nationwide continue to work with us year after year!

SATISFACTION

Met or exceeded the expectations of **96%** of educators and **98%** of parents

SUPPORT + COLLABORATION

1:1 Partner Support: Personalized support and all resources to ensure a positive experience

Turnkey Implementation: Curriculum, all materials, step-by-step implementation instructions, central registration system, enrollment support and on-demand resource center are provided

Promotional Support: Flyers, social media content, local advertising support and other promotional resources are provided

Creative Collaboration: Flexible program implementation can be designed to meet state, district or school needs

EMPOWERING EDUCATORS

Job-embedded professional development provides valuable transference opportunities using open-ended, inquiry-based teaching methods.

KEY TEACHING STRATEGIES

Educator Participant Survey:

How likely are you to apply the following teaching strategies after participating in your NIHF education program?

Use open-ended inquiry as an instruction tool

Foster risk-taking

Implement an experimental hands-on approach to learning

PARTNERSHIPS

2,400+ school and district partnerships

240,000+ children impacted through innovative, hands-on STEM experiences

160,000 underserved children supported via scholarship

SUPERIOR DISTRIBUTION

68,000-square-foot warehouse in North Canton, Ohio

Over 100,000 boxes shipped per year

Quality control **every 10th box** that is packaged

90% of Instructors felt the materials were organized

DEDICATION TO EDUCATION

All NIHF STEM enrichment programs are tested with **over 850 students** in school districts:

Programs are reviewed by content experts, safety experts and a team of education specialists.
