I CAN INVENT® MINDSET

INSPIRED BY OUR WORLD-CHANGING INDUCTEES

"When you have this sense of purpose, you can be driven to take risks because sometimes change is needed."

- Lonnie Johnson, Inventor of the Super Soaker®

ENTREPRENEURSHIP

COLLABORATION

"Become passionate about what you do and sell, sell, sell it."

– Spencer Silver, Co-inventor of Post-it® Notes

STEM

"To be able to contribute positively to our society, science and engineering is really the best career path.

– Margaret Wu, Inventor of Synthetic Lubricants

PERSISTENCE

"Make the impossible possible by never giving up. "

– Chieko Asakawa, Inventor of the Home Page Reader

"Look for what's missing.

"The protection of intellectual property is fundamental. If technology is not protected, then it's almost impossible to further develop it."

DESIGN THINKING

INTELLECTUAL

PROPERTY

"Know the problem you are trying to solve and approach it from several different directions.

INNOVATION

– Radia Perlman, Inventor of Robust Network Routing and Bridging

CREATIVE PROBLEM SOLVING

CONFIDENCE

"If you've got a good idea, follow it even when others say it's not."
