

Ċ

INSPIRE STUDENTS WITH FLEXIBLE, YEAR-ROUND FUN AND LEARNING

BUILD A POWERFUL MINDSET THROUGH INVENTION EDUCATION

Our invention education specialists can build the program that best suits your needs. We offer **in-school, afterschool and summer programs** packaged either by classroom or student.

EACH EDUCATION PROGRAM:

- Delivers hands-on learning through fun
- Supports all students with engaging learning
- Provides all materials needed

V Qualifies for state and local funding

Ċ

- Aligns with state and national standards
- Provides differentiated, evaluation-based curricula
- Receives inspiration from National Inventors Hall of Fame[®] Inductees

Every child can be both a problem finder and a problem solver. Invention education unlocks this potential. Through hands-on, project-based inventing, creativity and entrepreneurship, this pedagogy cultivates life skills, sparks students' interests on an individual level and keeps them eager to join in each day.

It all starts with the right mindset. By delivering authentic invention education, National Inventors Hall of Fame programs deliver joyful learning experiences that help children build the I Can Invent[®] Mindset — essential skills and traits that will empower them in every area of life.

Gen This Relationship.

Everyone [at NIHF] is dedicated to getting this [invention education] experience in kids' hands. I wish more people would make these calls so more students can have this experience.

- LAURA W., SENIOR DIRECTOR OF STEM INITIATIVES, NEW YORK, NY

"My favorite thing about Camp Invention[®] is that every single student gets to succeed. It makes me so happy to watch every camper find their place within the classroom. What a beautiful way to spend a week of their summer!"

— Jessica H., Instructor, Clear Lake, IA

"We use Invention Project[®] schoolwide and have found that it impacts engagement, attendance, conversation skills, problem-solving ability and an overall excitement while learning."

— Sara S., Principal, Sunnyvale, TX

AFTER SCHOOL

"What stood out to me the most was how the program sparked a genuine curiosity and excitement for learning. Students who were previously less engaged became deeply involved in the activities, collaborating with their peers and demonstrating newfound confidence."

— Hannah B., Extended Learning Coordinator, Pine Valley, CA

The National Inventors Hall of Fame provides STEM education programs for young innovators from PreK through grade 12.
